

PRICE WATCHER SIGNS | Product Fact Sheet

For quality, safety and convenience, look no further than Watchfire Price Watcher LED gas price signs. Price Watcher signs have the features gas station and convenience store owners have been asking for.

Fully manufactured cabinet and front flange simplify installation for new construction or retrofit. All components arrive factory-wired and fully assembled – just plug and play.

Front ventilation keeps the Price Watcher low-profile and enables it to fit into any type of sign structure.

Dual-chamber component cooling features built-in fans to ensure brighter, longer lasting LEDs without the need for additional wiring or fan kits.

Fully encapsulated modules provide the highest durability and weather resistance in the industry.

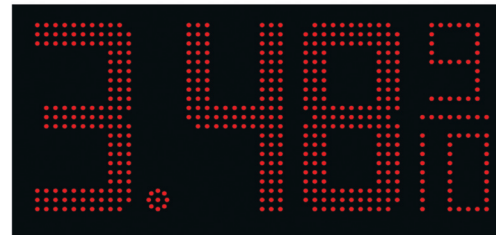

Windowless design produces a display that is up to 40% brighter, with less glare, moisture and heat build-up for optimal viewing and maximum durability.

5-button remote provides a safe, reliable, effective way to change sign prices – regardless of the weather.

When you want a gas price sign that delivers the highest quality construction along with the flexibility and reliable performance of a Watchfire LED sign, choose a Watchfire Price Watcher.
